

# Acrostic Poems

## Example

**A** – adults only

**L** – lose balance

**C** – can't drive after drinking

**O** –

**H** –

**O** –

**L** –

Using the word alcohol, peer pressure or any other relevant words allow time for students to create an Acrostic Poem.

They write the word vertically down the left hand side of the page and then think of either a factual key word or phrase that begins with each respective letter.

These could be displayed around the room, or used to share with a partner and then a group of four.
