

Graffiti Poster

Place 4-6 sheets of butchers paper around the room. Half of the sheets are to have 'What are the benefits of being a non-smoker?' written in the centre and the other half 'What are the benefits of a smoke free environment?'.

Invite students to write or draw their answers around the question.

Divide the class into groups and issue each group with a graffiti poster.

Allow time for the groups to read the responses and choose the Top 3 reasons.

Leave the posters on display in the classroom to support class work done after the Life Education session
